**Permit No. NWKGP-10M
Issue Date: October 31, 2001**

STATE OF MISSOURI EXTENSION OF GENERAL PERMIT 10M PORTABLE WATER INTAKE STRUCTURES

The U.S. Army Corps of Engineers, Kansas City District HAS EXTENDED general permit NWKGP-10M for Portable Water Intake Structures in navigable waters of the United States within the State of Missouri under the authority of Section 10 of the Rivers and Harbors Act of 1899 (33 USC 403).

Duration of this General Permit. The general permit has been extended approximately 120 days from the expiration date of October 31, 2001 and is in effect until February 28, 2002, unless reissued, revoked or specifically extended.

Notification Procedures. Individuals desiring to undertake work authorized by this general permit are encouraged to notify the District Engineer, Kansas City District. The notification should include a detailed drawing(s) and sufficient information to determine if the proposed work conforms to the criteria and conditions of the general permit. Copies of ENG Form 4345, instructions and/or assistance may be obtained by writing or calling the Kansas City District.

If the Corps determines that the work meets the provisions of the general permit, and no extraordinary conditions exist that warrant evaluation as an individual permit, the proponent will be notified to proceed. If the Corps determines that the subject work does not meet the provisions of the general permit, or that extraordinary conditions exist, the applicant will be notified that an individual permit will be necessary. Additional information concerning limitations and general and special conditions of the permit can be obtained by writing to the address at the top of this page or by calling 816-983-3990.

Conditions of this General Permit. All activities authorized by this general permit must comply with the general and special conditions contained in the permit document.
